

ON-SITE VISIT REQUEST

First name

Middle name

Last name

Employment Level

Contact phone number

Current Institutional affiliation

Institutional e-mail address

GA host **(You will be notified when a GA host is assigned)**

Technical supervisor

(a) This is the contact who will interface with the user's DIII-D related needs on a day-to-day basis.

(b) This person must be an existing DIII-D user.

Country of birth

Country of citizenship

(a) Non-US visitor requires a 2-week lead time to process badge paperwork

Do you have a green card?

Desired start date

Expected departure date

Type of visit

Do you require an office space?

Indicate your research area(s) from the following: FPP Research, Steady-State and Pulsed Fusion Core, Plasma Control, Divertor Science and Innovation, Core-Edge Integration, Negative Triangularity, Plasma Interacting Technology, Plasma-Material Interactions, Disruption Mitigation, Heating and Current Drive, Diagnostics and Actuators, ITER Research, ITER Integrated Scenarios, Turbulence and Transport, Pedestal and Non/Small ELM Regimes, Transient Control, Computing, Diagnostic Development, and Engineering?

Provide a short description below of the proposed research at DIII-D

CYBER ACCESS

Do you currently have cyber access?

(If you require cyber access, answer the remaining questions)

Will you be participating on the DIII-D team as a user of data?

If yes, will you be onsite planning experiments?

If not onsite, will you be planning experiments remotely?

Funding source

Cyber account start date

Place a check mark next to the systems desired. If you are unsure, leave blank.

System Name	Description
Email	Assignment of a user@fusion.gat.com email address. Typical for GA employees and long-term, on-site collaborators.
Wiki	DIII-D media wiki account https://diii-d.gat.com
Docs	doku wiki account https://docs.gat.com
SharePoint Guest	A SharePoint/OneDrive account for collaborators that utilize their institution e-mail address to log into the Fusion SharePoint tenant. This is typical for collaborators. If you select this, DO NOT select 'Microsoft 365'.
Microsoft 365	A SharePoint/OneDrive account that requires a user@fusion.gat.com user name for the Fusion SharePoint tenant. This is typical for GA employees and certain collaborators. If you select this, DO NOT select 'SharePoint Guest'.
Network	Add a computer MAC address for wired or wireless connectivity to the Fusion network when on campus. This is typical for GA employees or a collaborator that brings their institution laptop on campus (personal devices are not allowed on the Fusion network).
Cybele	SSH/NoMachine Gateway system to the MFE (Fusion) network.
Iris	DOE/DIII-D cluster.
Omega	Only for developing new codes, porting codes from iris and testing right now.
VPN-MFE	VPN access to general MFE (Fusion) network.
VPN-IFT	VPN access to IFT network.
VPN-TokZone	VPN access to the TokZone.
Atom	PCS operators and testers. Also run TIMCON.
Baldur	SSH/No Machine gateway to the TokZone network.
Plutus	MFE (Fusion) general file server for workstations. Can be used to hold GA work. No experiment data! Not generally used by scientists or collaborators.
Saturn	GA IR&D Linux cluster.

****Submit completed forms to Fran Castilleja at castillejaf@fusion.gat.com****
