

# Infusing Fusion into Your Future

## Summer, Fall, and Spring Opportunities

General Atomics (GA) is proud to offer rewarding undergraduate research opportunities through the Department of Energy (DOE) Science Undergraduate Laboratory Internship (SULI) and the Community College Internship (CCI) programs.

SULI/CCI offers selected applicants an opportunity to perform research under the guidance of laboratory staff scientists and engineers with sponsorship by the DOE.

*Students working in the DIII-D National Fusion Facility control room during experiments to advance fusion energy science*

	Spring 2024	Summer 2024	Fall 2023
<b>Online Application Opening Date</b>	July 12, 2023	October 17, 2023	March 15, 2023
<b>Application Due Date</b>	October 04, 2023	January 09, 2024	May 25, 2023
<b>Program Term Duration</b>	*16 weeks	10 weeks	*16 weeks
<b>Program Term Dates</b>	Jan - May	June - Aug	Sept - Dec

\*CCI Fall/Spring is 400 hours

*SULI/CCI Student Program at General Atomics*

**Stipend:** \$650/week plus housing (if available) or \$900/week without housing (based on 40hrs/week)

**Results:** Complete a research paper and present a poster

**Eligibility:** Full-time undergraduate (including community college) at an accredited institution as a matriculating undergraduate student, or a recent graduate

**Minimum GPA:** 2.95

**Minimum Age:** 18 years as of internship start date

**Citizenship:** Must be a U.S. citizen or a Lawful Permanent Resident

**Location:** DIII-D National Fusion Facility or GA's Inertial Fusion Technologies facilities, both in San Diego, CA

**How are applications judged?** Applications will be assessed based upon the applicant's performance in completed

academic coursework, and especially coursework in science, technology, engineering, or mathematics (STEM); strength of recommendation letters; expressed scientific interests; and the applicant's background, experience, accomplishments, and interests as they relate to the research programs at the host laboratories.

**What kind of travel reimbursement will I receive?** You will be reimbursed for inbound and outbound travel between your home or school and San Diego.

**What should I expect from the mentoring relationship at the laboratory?** All interns will be given ongoing technical guidance and advice, from their project mentor, a professional scientist or engineer. Interns participating in person will receive appropriate materials, equipment, technical and clerical support, and office space to perform research activities. Virtual interns will receive the appropriate equipment to support remote work. In all cases, interns can expect a professional and stimulating intellectual atmosphere.

*SULI student adjusts an automated mass spectrometer system as part of his research in the Inertial Fusion Technology division*

*SULI student checks the spatial calibration of a charge exchange recombination spectroscopy system, as part of research into 3-D effects on plasma equilibrium*
